Map filed JAN 13 1999

The applicant Rockview Farms, inc., hereby makes application for permission to change the Point of Diversion, Manner of Use, and Place of Use, for a portion of water heretofore appropriated under Permit 40448

1. The source of water is an underground source in Nye County, Nv
2. The amount of water to be changed 1.0 CFS. not to exceed 57.50 AFA.
3. The water to be used for Commercial Dairy Purposes
4. The water heretofore permitted for Quasi-Municipal and Domestic
5. The water is to be diverted at the following point Within the NE. $\frac{1}{4}$ NE. $\frac{1}{4}$ of Section 9, T.17S., R.49E., M.D.M., or at a point from which the NE. corner of said Section 9 bears N 87° 49' 51" E, a distance of 1284 feet
6. The existing permitted point of diversion is located within the NW. $\frac{1}{4}$ NE. $\frac{1}{4}$ of Section 24, T.15S., R.49E., M.D.M., or at a point from which the N. $\frac{1}{4}$ corner of said Section 24 bears N. 45° W., a distance of 707.0 feet.
7. Proposed place of use 160 acres within the NE. $\frac{1}{4}$ of Section 9, T.17S., R.49E., M.D.M.
8. Existing place of use Sections 13, 24, and N. $\frac{1}{2}$ of Section 25, all in T.15S., R.49E., M.D.M.
9. Use will be from January 1 to December 31 of each year.
10. Use was permitted from January 1 to December 31 of each year.
11. Description of proposed works a 12" dia. X 320' deep drilled well, cased all the way, with a 75 hp. submersible pump, and pipe
12. Estimated cost of works \$20,000
13. Estimated time required to construct works Existing works, same as item #11 above
14. Estimated time required to complete the application of water to beneficial use 3 years
15. Remarks: Watering of 2500 cows, cleaning of barns, cooling misters, and general daily operation of a commercial dairy. Also, the runoff water is to be disposed of by sprinkling it on fields of alfalfa to grow feed for these dairy cows. This recycled water is to be sprinkled within this permit area

APPROVAL OF STATE ENGINEER

This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the following limitations and conditions:

This permit to change the point of diversion, place of use, and manner of use of a portion of the waters of an underground source as heretofore granted under Permit 40448 is issued subject to the terms and conditions imposed in said Permit 40448 and with the understanding that no other rights on the source will be affected by the change proposed herein. The well shall be equipped with a 2-inch opening and a totalizing meter must be installed and maintained in the discharge pipeline near the point of diversion and accurate measurements must be kept of water placed to beneficial use. The totalizing meter must be installed before any use of the water begins or before the proof of completion of work is filed. If the well is flowing, a valve must be installed and maintained to prevent waste. This source is located within an area designated by the State Engineer pursuant to NRS 534.030. The State retains the right to regulate the use of the water herein granted at any and all times.

This permit does not extend the permittee the right of ingress and egress on public, private or corporate lands.

The total combined duty of water under Permits 62115, 64766, and 65144 shall not exceed 343.0 acre-feet annually.

The issuance of this permit does not waive the requirements that the permit holder obtain other permits from State, Federal and local agencies.

If any water under this permit is cancelled, withdrawn, or any water is not put to beneficial use, it will revert to the groundwater source and not back to the base water right.

Monthly records shall be kept of the amount of water pumped from this well and the records submitted to the State Engineer on a quarterly basis within 15 days after the end of each calendar quarter.

(CONTINUED ON PAGE 3)

The amount of water to be appropriated shall be limited to the amount which can be applied to beneficial use, and not to exceed 1.0 cubic foot per second, but not to exceed 57.50 acre-feet annually.

Work must be prosecuted with reasonable diligence and be completed on or before:

December 31, 2000

Proof of completion of work shall be filed before:

January 31, 2001

Water must be placed to beneficial use on or before:

December 31, 2002

Proof of the application of water to beneficial use shall be filed on or before:

January 31, 2003

Map in support of proof of beneficial use shall be filed on or before:

January 31, 2003

IN TESTIMONY WHEREOF, I, R. MICHAEL TURNIPSEED, P.E.,

State Engineer of Nevada, have hereunto set
